ABOUT ME

Full-Stack Developer specializing in Laravel and React Native. Backed by a strong academic foundation in CS and IT Management, I build secure, scalable, and user-centric applications. Passionate about clean code and experienced in collaborating within the Japanese IT ecosystem.

EXPERIENCES

CRUD DEVELOPMENT PROJECT

PHP, Laravel, Blade, MySQL/Eloquent, Bootstrap 5, JavaScript

- Full-Stack Development: Built a Laravel CRUD app for Japanese Company featuring secure search and data validation.
- Frontend Design: Designed responsive Bootstrap interfaces with custom pagination for large datasets.

POKEDEX MOBILE APP

React Native, Expo, TypeScript, PokeAPI

- Developed a React Native/Expo app using PokeAPI to display 1,000+ entities.
- Optimized navigation and data fetching using Expo Router and custom async logic.
